

# CII National Award for Excellence in Energy Management 2021

Solar PV System,

Use of Maximum  
Day Light

EE -HVAC System,

TCS- Mihan

Nagpur

(IGBC Gold Rated  
Green Building)

Sector : Building

Team Members : Dr. Laxmikant Naik

Vishwanath Sule ,Sachin Gujar & Nilesh Vaidya

Environmental Sustainability, Health & Safety

Solar Water Heater,

Bio-digester, GreenBox

Green Landscape

# Brief Introduction of Company : About TCS

Building on belief

**Board Level Committee**  
*(including CEO & MD – Director Responsible for Corporate Sustainability)*

**Executive Vice-President & Global Head-HR**  
*Head – Corporate Sustainability*

**Sustainability Council**  
*Representatives from .....*

Internal IT    Infrastructure, Planning & Development    Administration    Environmental Sustainability, Health & Safety

Human Resources    Corporate Social Responsibility    TCS Maitree

Safety First /Fit4 Life /Purpose F4 Life    Corporate Communications    Investor Relations

**40-HSE Coordinators overseeing Management Systems deployment across all TCS Locations**

## Sustainability Road Map

Energy	Water	Waste	Carbon	IT for Green	Biodiversity
Energy efficient building design	Water efficient design	Reduction at source	Avoid, Reduce, Replace and offset hierarchy	Products and services to help reduce the ecological impact of our customers	Conserve and enhance biodiversity within TCS campuses
Operational efficiency	Operational efficiency	Segregation	Energy efficiency		
Green IT	Rainwater harvesting	Recycling and reuse	Shift to renewable energy		
	Sewage recycling	Minimum waste to landfill			

◆ **Location** : TCS MIHAN, Spécial Economic Zone, Village Dahegaon, Nagpur

◆ Gold Rated (IGBC) Green Building

◆ ISO 9001/ 20000/27001/14001/45001 certified

◆ **Total /Facility area** - 50. Acres/ 1.18 Lakh Sq. ft with 6400 Employees

◆ Total number of buildings, 11, including Library, Data Center, Gymnasium, Cafeteria, Consulting /Video Conferencing /Training rmunoom , Indoor /out door games etc

◆ Innovative Technologies: Energy efficient building envelop, Solar PV System, Solar water Heater, Energy efficient HVAC & Lighting System, Heat Recovery Unit ,Green IT technology, Zero discharge , Zero waste to landfilled site etc are some of the innovative technologies

A View of TCS- Mihan, Nagpur

Birds Eye –View of Facility

## Architectural Energy Efficient Features of the Building

- ❖ AAC block wall, R-15 roof insulation, double glazing Unit.
- ❖ Heat Transfer DGU Façade Glass
- ❖ Energy efficient Interior and exterior lighting system. Use of maximum daylight
- ❖ Energy efficient fan system and Energy Recovery System.
- ❖ Vertical Garden 500 Sq ft
- ❖ Well developed landscape with well grown **2636 Trees** & Lawn Area providing natural cooling & ventilation also reduces Heat island Effect

DGU Façade Glass

EE Lighting System

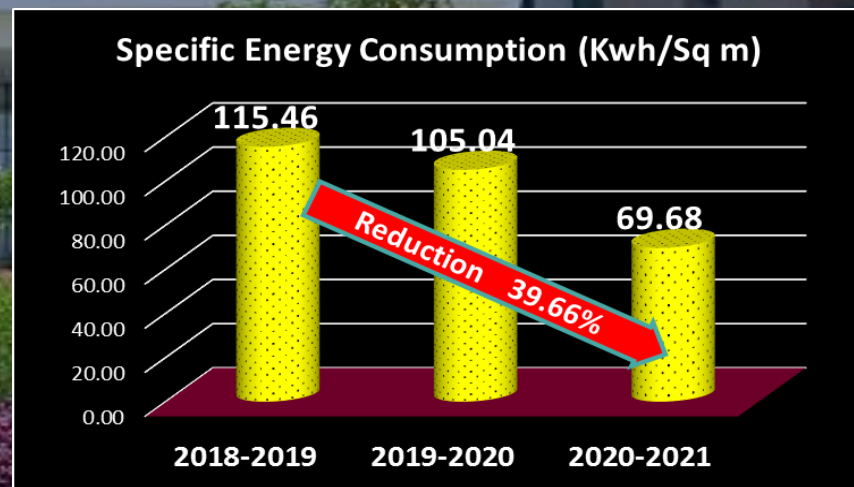

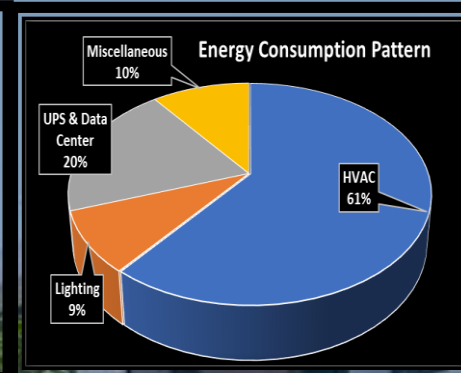

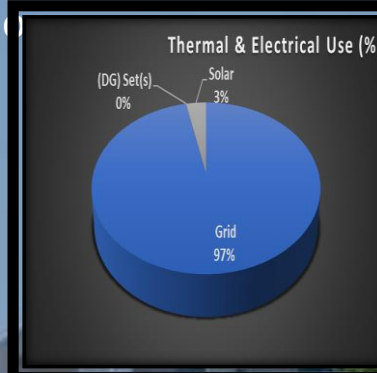

Use of Day Light

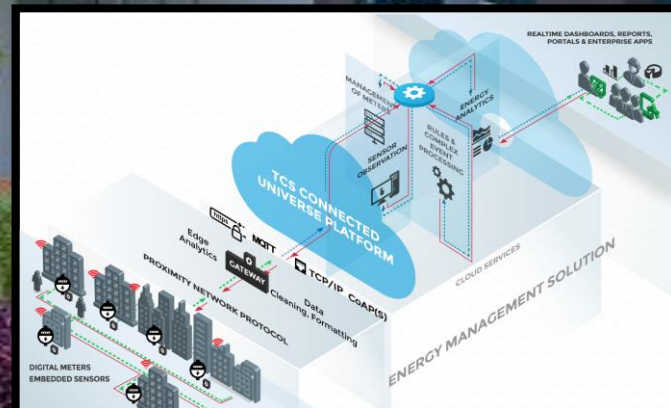

Natural Cooling & Ventilation

Effective implementation of various Energy Conservation program in the areas of

- Building Envelop: Explained previous slide
- Improve Energy Efficiency in operations
- Energy Efficient HVAC System
- Energy Efficient Lighting System
- Green IT
- Other Energy Conservation Programs
- During 2020-21 33.36% due to pandemic norms (SBWS)

- ❖ TCS -Recourse Optimization Center (RoC)  
It is a command center operation , established to monitor and optimize the resources like energy, water, transport etc. for TCS facilities
- ❖ ROC uses leading edge & patent-rich cloud based IoT Platform, scalable to additional energy management aspects, and other business operational areas
- ❖ ROC is using TCS EMS solution hosted on Azure cloud. 18000+ sensors are installed at the ground level giving 2.5 million observations per day at a 15 minute interval covering 35 Mn. Sq. ft. for 135+ buildings.
- ❖ Provision of 520 Energy meters for Energy Monitoring by ROC

- ❖ **High Efficiency LT Chiller** to eliminate transmission and transformer losses & High COP Cooling Tower
- ❖ Demand Control Ventilation with fresh air intake regulated by **CO2 Sensors**
- ❖ **Heat Recovery Units** for is a secondary air conditioning units used to pre cool the intake fresh air
- ❖ **Variable Air Volume Units** installed in air distribution for conditioned areas for optimum part load operation
- ❖ Heat Recovery Wheel to pre cool fresh air
- ❖ Green Gas Used in HVAC Systems (R32, R410)

EE Chillers

Cooling Towers

Heat Recovery Unit

- ❖ Provision of Green Data Center as ;**Server Virtualization**
- ❖ Aligning the Server Racks with help of TCS Developed Power Assess Tool
- ❖ Energy efficient **Localized Cooling Architectural System**  
Cold & Hot Aisle Containment, In Row Cooling. Rear Door Heat Exchanger.
- ❖ Replacement of Desktops with Thin Clients
- ❖ Installing Energy Star Rated PCs
- ❖ Desktop hibernation to reduce wastage of energy consumed during non-office hours and idle period
- ❖ Procurement of Green Printers to reduce energy Consumption (PIN Deployment)

Energy Efficient Data Center

Localise Cooling Architectural System

Provision of Internal & External LED Lighting System

**Illumination level** at to 300 lux for visual comfort as well as using less energy

Installation of **Capacitor Bank (APFC)** to reduce transmission losses and distortion due to heavy in surge current.

Provision of **Intelligent light sensors** in conference rooms

Sensible use of peripheral lightning along with Timer based Controller

Provision of electronic energy meter for Lighting DB panels, UPS, Air Conditioning, Solar PV & DG sets separately

EE Internal & External lighting System

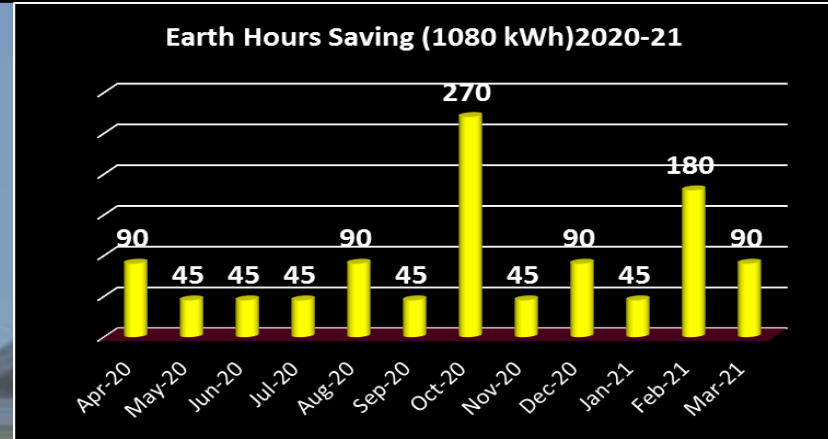

Automatic Power Factor Control

# Reasons For Variation : Other Energy Efficient Initiatives

Building on belief

- ❖ Energy savings due to Set up the Earth Hour(4050Kwh) for 3 years
- ❖ Provision of Energy Efficient Pumping System : Water Free Wheeling System
- ❖ Provision of Energy Efficient Irrigation System
- ❖ Provision of Vertical Garden
- ❖ Provision of Indoor Plants
- ❖ Well grown natives trees with biologically diversified landscape
- ❖ Awareness Program for energy conservation : Mailers, Posters, Lectures, Competitions

**Earth Hour Set –up for 2020-21**

Indoor Plants

Green Wall

Improvement : SEC Reduce **9.03 % 2019-20**  
While during **2020-21 33.36%** due to  
pandemic norms (SBWS)

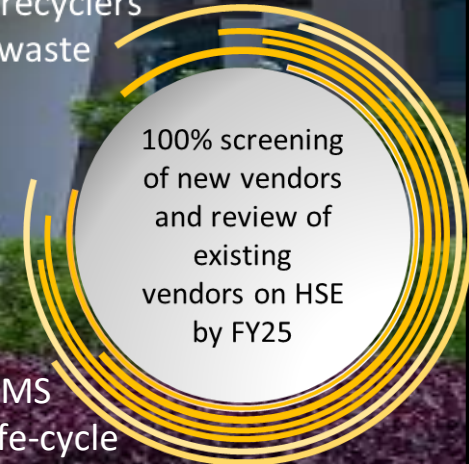

Competitor	Internal Competitor	External Competitor
Parameters	Electrical SEC kWh/kg	
Comparison of Specific Energy Consumption (SEC)	2019-2020	
SEC : Yours	105.04	
SEC Values for Competitor - 1	153 Bhubaneshwar Branch	Wipro 144 *
SEC Values for Competitor - 2	141 Kochi TCS Centre	
SEC Values for Competitor - 3	122 Thiruvananthapuram	
National Benchmark for SEC	173**	
International Benchmark for SEC	242.188 ***	

Note

\* Wipro Annual Report 2019-2020

\*\* BEE Bench Marking for Commercial Building

\*\*\* Iotacommunications-Benchmarking Commercial Building

- ❖ Certification of TCS –Mihan for ISO 50001-2018
- ❖ Expansion of Solar PV System
- ❖ Provision for Solar Street Lighting System
- ❖ Provision for Solar Parking System
- ❖ UPS Consolidation
- ❖ Biogas Generation

Solar PV Expansion

Solar Lighting System

Solar Parking System

# Energy Savings Project implemented last 3 Years

Building on belief

S N	Year	No of Energy savings Projects	Investment (INR Millions)	Electrical savings (Million kWh)	Thermal savings (Milliom Kcal MTOE)	Savings (INR Millions)	Impacts on SEC
1	FY 2018-19	7	0	1.23	NA	5.03	Reduced by 13.06 % (2017-18)
2	FY 2019-20	8	23.11	2.02	NA	8.84	9.03 % (2018-19)
3	FY 2020-21	8	Nil	0.99	NA	4.36	33.67 % (2019-20)

## Infrastructure & Information – Enterprise Level

### Infrastructure Set-Up & Management

- Setting up the TEAMS Infrastructure
- EC View configuration
- Ensuring infrastructure performance

### Data Management

- Data stability
- Data availability (target >95%)
- Data quality ((target >95%)
- Data cleansing

### Benchmarking & Target Setting

- Setting site wise benchmarks and targets

## Monitoring & Analysis – Site Level

### Real Time Incident Management

- Daily monitoring to identify and inform site of incidents

### Periodic Analysis

- Monthly site level performance - trends, KPIs

## Initiatives Management – Site Level

## Solar Energy from Solar Photovoltaic Panel

# Utilization of Renewable Energy sources

Building on belief

## Renewable Energy

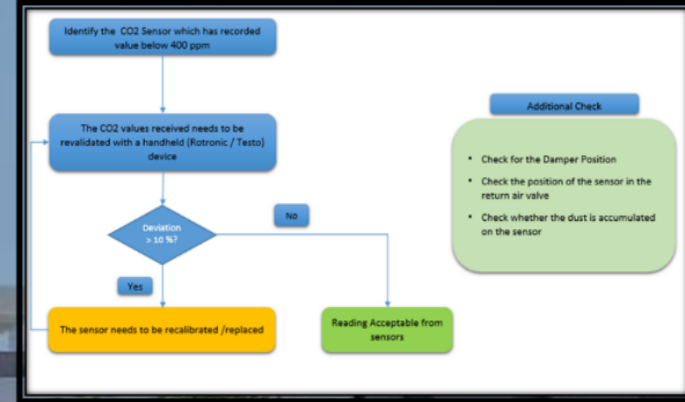

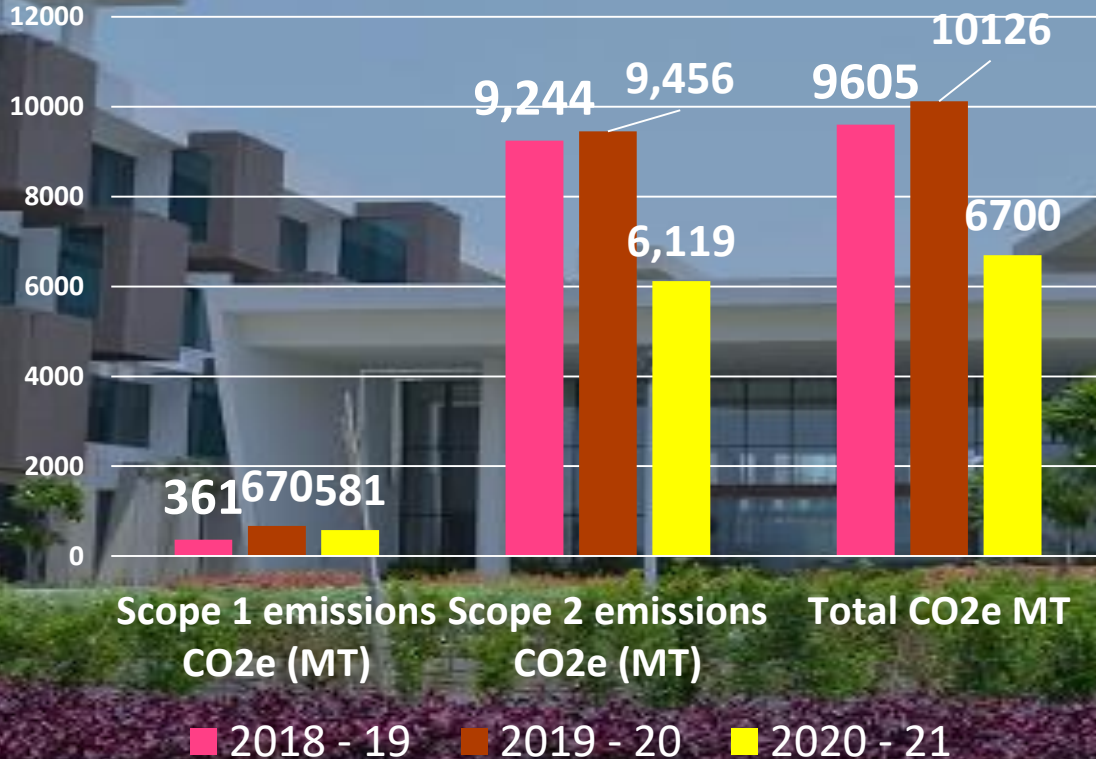

■ Usage (million kCal)

■ % of overall thermal energy

## Carbon Foot Print

## TCS- Sustainable Intelligent Solution for AIQM

## Daily monitoring system and use of IoT

**IoT:** IoT has enabled a collection of vast amounts of data from the devices and machines across industrial domains. Traditionally, the device data is transported to cloud infrastructure for analysis and useful insights.

### TCUP EDGE:

TCUP EDGE is a lightweight IoT platform which is designed to run on resource-constrained devices with low CPU and memory footprint

- **Separate budget for Energy Conservation – Yes,** Based on the technology upgradation plan & energy targets every year budget allocation is done, this year budget is allocated for UPS replacement project
- **Energy efficiency / awareness training program – Yes,**

Tata Sustainability Month. Webinar on Energy. Dec Energy conservation Month. Earth hour on monthly basis and Energy Day-Every year

Monitoring Methodology	Frequency	Responsibility
REMC integrated with Building Management System	Daily (24/7)	Admin
Power IT Tool	Daily	Data Center IS
On –Line SoFi Tool	Monthly	Admin/HSE
Energy Performance review	Quarterly	Admin/HSE/DCH
Internal Audit	½ Yearly	HSE/Admin
External Audit	Yearly	HSE
Data Assurance by 3 <sup>rd</sup> party (KPMG)	Yearly	HSE

SN	Source of ENCON Idea's	Extent of Team work
1	LEED certification	TCS top management involvement IPD
2	Implementation of ISO 14001, as a part of integrated HSEMS system	HSEMS committee of Kalinga Park comprising of cross functional team Admin, HR, L&D, IS, HSE, various project units
3	Fulfillment of energy conservation targets as per the HSEMS system	HSEMS committee and entire staff
4	Awareness among associates & contract employees regarding Energy conservation	HSEMS committee , HR, HSE, Admin team
5	Implementation of Energy conservation projects	Top management including Center Head, MR & Head Administration of Kalinga Park

## NATIONAL ENERGY CONSERVATION DAY

14<sup>th</sup> DECEMBER 2018

Energy Saved is Energy Generated!

### Energy Conservation @ TCS

51.4% reduction in specific energy consumption

Carbon Footprint ↓

↑ Carbon Footprint

- Energy Efficient Building design
- Energy Efficient Operations
- Energy Efficient Devices & Equipment
- Use of Renewable Energy

LEED Gold Rated Infrastructure Design	Procurement of Energy Efficient Equipment	Energy Efficient Data Centers
Switching off of Non-essential Appliances when not required	4403 MWh of Solar Energy Harvested	
Optimization of HVAC System	Auto hibernation of Desktops	Server Virtualization
		Installation of LEDs

## ENERGY CONSERVATION DAY, 14<sup>th</sup> December 2019

### ENERGY CONSERVATION @ TCS

**Key Initiatives at TCS:**

- 13 LEED certified green buildings
- Data Centre Power Management with virtualization and consolidation of servers
- Use of renewable energy (Solar) for Power, Heating water, Lighting Parking System
- Intensive awareness programs on Energy conservation

**Click Here to view a video to know more**

**Major Outcomes:**

- Carbon footprint reduction is ~56% (stands at 1.31 tCO2e per FTE per annum)
- Green power procured equals 10.1% of the total consumption (At P&W TCS level 56,843 MWh Green power was consumed)

9 TCS centers received CII National Award for Excellence in Energy Management (Ballarpark, Deccan Park, Garima Park, New Campus Kochi, Yantra Park, Siraspet, Synergy Park, Sahyadri Park, Preetul Park)

## JUNE 2021 TATA SUSTAINABILITY MONTH EVENT CALENDAR

Theme: Ecosystem Restoration

<p><b>4<sup>th</sup> June, Friday</b></p> <p>Role of IT in Biodiversity Conservation</p> <p><b>#OneTCS Session</b> 6:30 PM IST</p> <p>Mr. Praveen Srivastava IFS, Maharashtra State Biodiversity Board</p>	<p><b>7<sup>th</sup> June, Monday</b></p> <p>Role of pollinators in ecosystem restoration</p> <p><b>Webinar</b> 5-6 PM IST</p> <p>Dr. Gopal Patilwale, Centre for Bee Restoration</p>	<p><b>10<sup>th</sup> June, Thurs</b></p> <p>Ecosystem restoration - We are part of the solution</p> <p><b>Webinar</b> 5-6 PM IST</p> <p>Dr. Hishmi Jamil Hussain Head Biodiversity, Tata Steel Limited</p>	<p><b>14<sup>th</sup> June, Monday</b></p> <p>Think Green energy @ Home</p> <p><b>Webinar</b> 5-6 PM IST</p> <p>Vishwanath S &amp; Sridhar K TCS, ESHS</p>	<p><b>17<sup>th</sup> June, Thurs</b></p> <p>Conserve Energy! Restore ecosystem!</p> <p><b>Webinar</b> 5-6 PM IST</p> <p>Mr. Tomson Sebastian Energy technologist, Energy Management Centre - Kerala</p>
<p><b>21<sup>st</sup> June, Monday</b></p> <p>Valuing water</p> <p><b>Webinar</b> 5-6 PM IST</p> <p>Shama C &amp; Manoj J TCS, ESHS</p>	<p><b>24<sup>th</sup> June, Thurs</b></p> <p>Water conservation &amp; Eco-restoration of Aquatic ecosystem</p> <p><b>Webinar</b> 5-6 PM IST</p> <p>Amit Vijay Setya Member, Maharashtra Board of Biodiversity Board</p>	<p><b>28<sup>th</sup> June, Monday</b></p> <p>Household waste management tips</p> <p><b>Webinar</b> 5-6 PM IST</p> <p>Jose Joseph MD, Crede! ## Implementation of ISO 50001

TCS is being first IT company in India to be certified for this . We have started implementing the standard certification phase wise, So far 6 facilities are certified & Nagpur Mihan will be taken up during 21-22 cycle

## IGBC certification Gold Rated :

38.46  
Million  
Invested on  
Energy  
Efficient  
Project

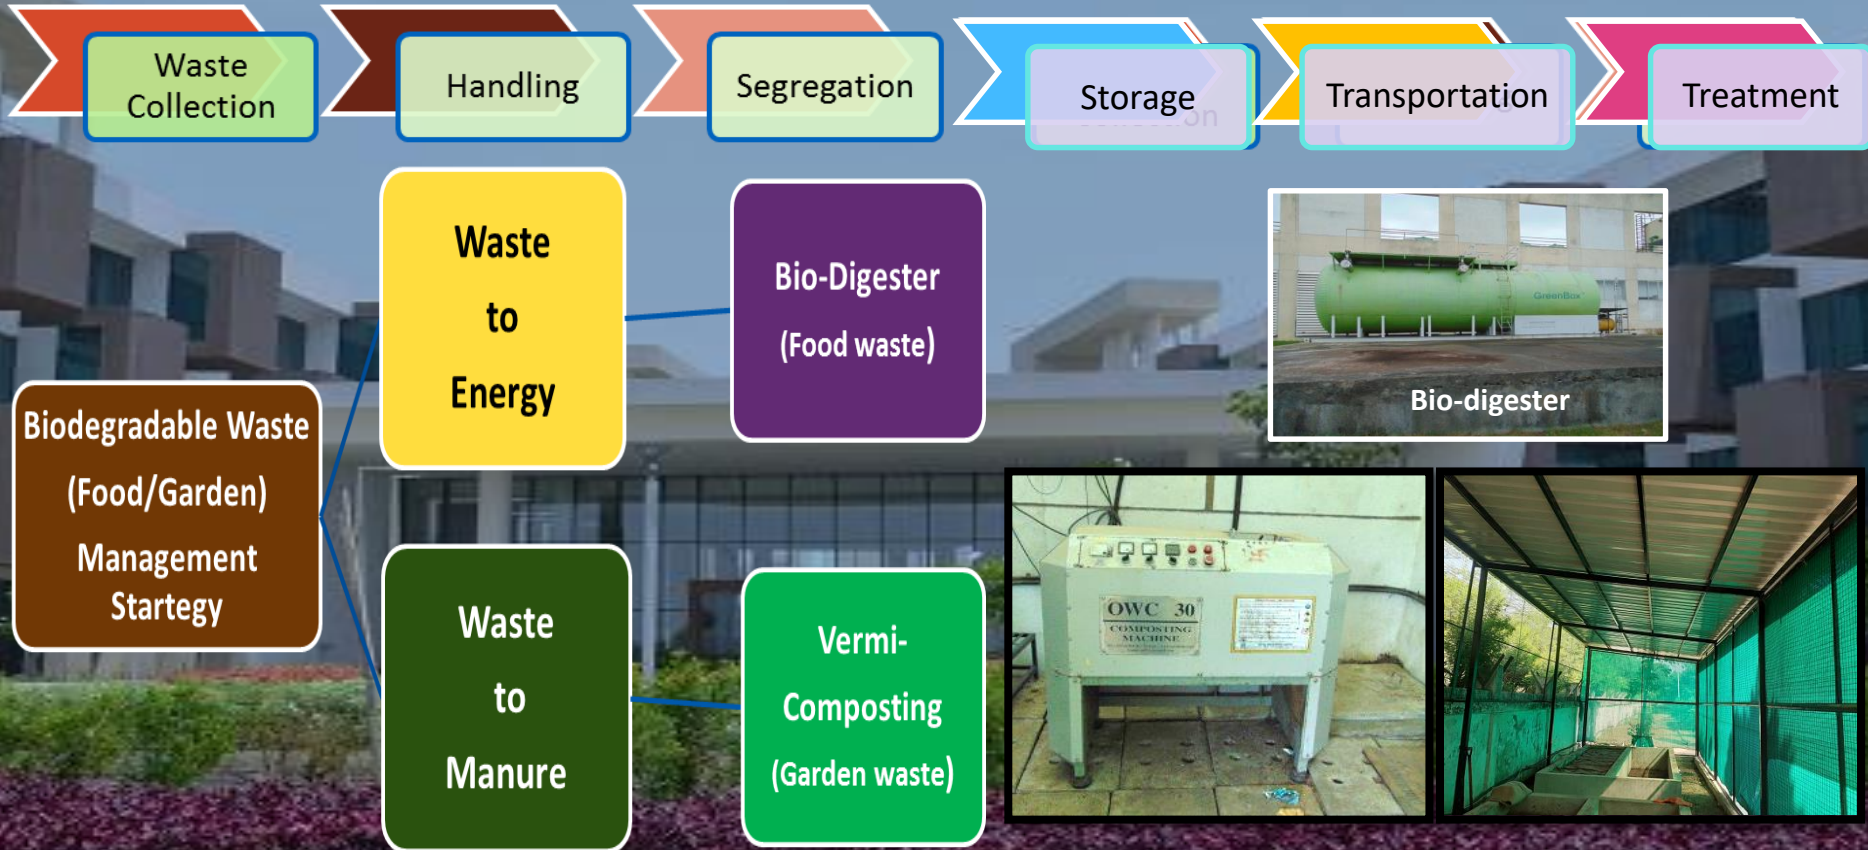

200 Million  
is Planned  
to Invest to  
Reduce  
Scope 2  
Carbon  
Footprint

This is first time TCS Mihaan is participating in CII energy award.

However, based on the experience of the other TCS branches we have adopted;

- ❖ -Good practices to reduce energy consumptions
- ❖ -Benchmarking for setting up a target for SEC
- ❖ -Monitoring of absolute electricity consumption

Organic Waste Converter Proposed Vermi-compost Plant

The image shows the exterior of a modern building with a central white pillar. The pillar features the Tata Consultancy Services logo and the text 'TATA CONSULTANCY SERVICES'. The building has a facade of light-colored panels and glass windows. In the foreground, there is a well-maintained garden with green hedges and yellow flowers. The sky is clear and blue.

**TATA**  
**TATA CONSULTANCY SERVICES**

**Thank You !**
