CII energy efficiency meet in Hyderabad on Sept.16

Confederation of Indian Industry (CII) will host the 24th Energy Efficiency Summit in Hyderabad from September 16 to 18. The summit, with 'Accelerating the transition to a low carbon economy through energy efficiency' as the theme, will bring together over 2,500 delegates and at least 100 speakers, and host discussions on 18 industry sectors. Two sector-focused conferences, 21st edition of CII Power Plant Summit and 19th edition of CII PaperTech, besides presentation of 26th CII national award for excellence in energy management and an exhibition will be held as part of the event.

CII to Host India's Largest Energy Efficiency Summit in Hyderabad

HYDERABAD Wakeup telangana

The Confederation of Indian Industry (CII) will host the 24th Energy Efficiency Summit, India's largest conference on energy efficiency, from 16–18 September 2025 at the Hyderabad International Convention Centre (HICC). The event is expected to draw over 2,500 delegates and feature 100+ expert speakers discussing innovations across 18+ industry sectors.

Themed “Accelerating the Transition to a Low Carbon Economy through Energy Efficiency,” the Summit is a flagship initiative of the CII – Sohrabji Godrej Green Business Centre (CII–GBC), Hyderabad. It aims to bring together industry leaders, government officials, academia, and international organizations to advance sustainable energy practices in India.

The Summit will host two

sector-focused conferences:

the 21st CII Power Plant Summit and the 19th CII PaperTech, focusing on innovations and strategies in the thermal power and pulp & paper sectors to support environmental and climate transitions.

A major highlight will be the 26th CII National Award for Excellence in Energy Management, which will recognize over 200 companies and individuals for outstanding contributions to sustainable energy initiatives.

The event will also showcase 100+ exhibitors, including a dedicated pavilion for low-carbon technology innovations, highlighting cutting-edge solutions in energy efficiency.

CII–GBC is CII's dedicated institute for green practices and sustainable business solutions. The Centre provides advisory services on energy management, green buildings,

द कन्फेडरेशन ऑफ इंडियन इंडस्ट्री का ऊर्जा दक्षता समिट 16 से

हैदराबाद, 8 सितंबर
(मिलाप ब्यूरो)
ऊर्जा दक्षता पर द कन्फेडरेशन ऑफ इंडियन इंडस्ट्री (सीआईआई) का राष्ट्रीय सम्मेलन आगामी 16 से 18 सितंबर तक शहर के माधापुर स्थित एचआईसीसी नोवोटेल में आयोजित किया जाएगा।
यहाँ जारी विज्ञप्ति के अनुसार,

सीआईआई-सोहरबजी गोदरेज ग्रीन बिजनेस सेंटर के तत्वावधान में 24वां एनर्जी एफिशिएंसी सम्मेलन 16 से 18 सितंबर तक हैदराबाद इंटरनेशनल कन्वेंशन सेंटर में आयोजित होगा। कार्यक्रम में उद्योग जगत, सरकारी प्रतिनिधियों, शिक्षाविदों, प्रमुख उद्योग संघों और देश-विदेश से विशेषज्ञ भाग लेकर ऊर्जा दक्षता को नई दिशा देने

के विषय पर विचार विमर्श करेंगे। सम्मेलन का विषय ऊर्जा दक्षता के माध्यम से कम-कार्बन अर्थव्यवस्था की दिशा में तेजी से प्रगति है। इसमें 2,500 से अधिक प्रतिनिधि भाग लेंगे। लगभग 18 औद्योगिक क्षेत्रों पर 100 से अधिक वक्ता गहन चर्चा करेंगे। सीआईआई पावर प्लांट समिट और सीआईआई पेपरटेक में भी इस

आयोजन का हिस्सा हैं। इनमें थर्मल पावर प्लांट और पल्प एवं पेपर सेक्टर में नवाचारों, तकनीकों, रणनीतियों पर चर्चा होगी ताकि पर्यावरणीय और जलवायु परिवर्तन की चुनौतियों पर चर्चा की जाएगी।

सम्मेलन के दौरान 200 से अधिक कंपनियों और व्यक्तियों को सतत ऊर्जा प्रथाओं में उत्कृष्ट योगदान के लिए

सीआईआई नेशनल अवॉर्ड फॉर एक्सीलेंस इन एनर्जी मैनेजमेंट पुरस्कार से सम्मानित किया जाएगा। एक प्रदर्शनी भी होगी, जिसमें 100 से अधिक प्रदर्शक अत्याधुनिक तकनीक और समाधान प्रस्तुत करेंगे। हरित भविष्य की झांकियों पर आधारित विशेष लो-कार्बन टेक्नोलॉजी इनोवेशन पवेलियन भी होगा।

CII Paper Tech 2025: Driving Sustainability and Innovation in Paper Sector

Hyderabad, Sep 16: The 19th edition of CII Paper Tech, a flagship conference advancing energy efficiency in India's pulp & paper sector, will be held on 16th & 17th September 2025 at the Hyderabad International Convention Centre (HICC). Themed "Make Indian Pulp & Paper Industry World Class", the event brings together industry leaders, innovators, and stakeholders to discuss strategies for elevating the sector to international standards.

Mr. Pawan Agarwal, President, Indian Paper Manufacturers Association (IPMA) and MD, Naini Papers Ltd., highlighted: "The Indian pulp and paper industry can become world-class with a simple shift in mindset. Small steps, such as scaling operations, ensuring export consistency, and creating unique value propositions, can make a significant difference. By moving beyond just commodities and focusing on value-added products, we can create a thriving ecosystem

for engineered solutions."

Mr. Sushil Kumar Khetan, Vice President of the Indian Newsprint Manufacturers Association (INMA) & Chief Executive Officer, Emami Paper Ltd., shared: "CII's PaperTech has become a powerful platform for ideas, innovations, and change. The paper industry has rapidly embraced technology, with recycling at its very core. Our next big step must be to make paper

mills efficient without coal, moving decisively from intent to action."

Mr. Pramod Agarwal, President, Indian Agro & Recycled Paper Mills Association (IARPMA) & Chairman & Managing Director, Rama Paper Mills Ltd. remarked: "Paper is not just a product—it is an integral part of our economy. The growth of this industry is directly linked to the progress of the nation. As the

largest contributor to recycling, the paper industry perfectly aligns with the Swachh Bharat Mission envisioned by our Hon'ble Prime Minister."

In addition to insightful discussions and keynote addresses, PaperTech 2025 featured the release of the "Best Practices Manual in Paper Sector (Volume 13)," showcasing advancements and innovations within the industry. The conference also honored N Gopalratnam, Chairman, Seshasayee Paper & Boards Ltd. with the Distinguished Personality award, recognizing his outstanding contributions to the pulp and paper sector.

PaperTech 2025 is being organized alongside the 24th CII Energy Efficiency Summit and the 26th CII National Energy Awards for Excellence in Energy Management, where leading paper mills and other industries will be awarded after evaluation of their achievements in energy efficiency.

CII Paper Tech 2025: Driving Sustainability and Innovation in Paper Sector

Hyderabad, Sep 16: The 19th edition of CII Paper Tech, a flagship conference advancing energy efficiency in India's pulp & paper sector, will be held on 16th & 17th September 2025 at the Hyderabad International Convention Centre (HICC). Themed "Make Indian Pulp & Paper Industry World Class", the event brings together industry leaders, innovators, and stakeholders to discuss strategies for elevating the sector to international standards.

Mr. Pawan Agarwal, President, Indian Paper Manufacturers Association (IPMA) and MD, Naini Papers Ltd., highlighted: "The Indian pulp and paper industry can become world-class with a simple shift in mindset. Small steps, such as scaling operations, ensuring export consistency, and creating unique value propositions, can make a significant difference. By moving beyond just commodities and focusing on value-added products, we can create a thriving ecosystem for engineered solutions."

Mr. Sushil Kumar Khetan, Vice President of the Indian Newsprint Manufacturers Association

(INMA) & Chief Executive Officer, Emami Paper Ltd., shared: "CII's PaperTech has become a powerful platform for ideas, innovations, and change. The paper industry has rapidly embraced technology, with recycling at its very core. Our next big step must be to make paper mills efficient without coal, moving decisively from intent to action."

Mr. Pramod Agarwal, President, Indian Agro & Recycled Paper Mills Association (IARPMA) & Chairman & Managing Director, Rama Paper Mills Ltd. remarked: "Paper is

not just a product—it is an integral part of our economy. The growth of this industry is directly linked to the progress of the nation. As the largest contributor to recycling, the paper industry perfectly aligns with the Swachh Bharat Mission envisioned by our Hon'ble Prime Minister."

In addition to insightful discussions and keynote addresses, PaperTech 2025 featured the release of the "Best Practices Manual in Paper Sector (Volume 13)," showcasing advancements and innovations within the in-

dustry. The conference also honored N Gopalratnam, Chairman, Seshasayee Paper & Boards Ltd. with the Distinguished Personality award, recognizing his outstanding contributions to the pulp and paper sector.

PaperTech 2025 is being organized alongside the 24th CII Energy Efficiency Summit and the 26th CII National Energy Awards for Excellence in Energy Management, where leading paper mills and other industries will be awarded after evaluation of their achievements in energy efficiency.

सीआईआई ने दिया कागज़ क्षेत्र में स्थिरता और नवाचार पर जोर

हैदराबाद, 16 सितंबर
(मिलाप ब्यूरो)

भारत के लुगदी एवं कागज़ क्षेत्र में ऊर्जा दक्षता को बढ़ावा देने के उद्देश्य से सीआईआई पेपरटेक सम्मेलन आज यहाँ एचआईसीसी में प्रारंभ हुआ। इस सम्मेलन में प्रतिभागियों ने कागज़ उद्योग में स्थिरता और नवाचार को प्रोत्साहित करने पर जोर दिया।

भारतीय लुगदी एवं कागज़ उद्योग को विश्वस्तरीय बनाए जाने के विषय पर आधारित कार्यक्रम में उद्योग जगत के अग्रणी, नवप्रवर्तक और हितधारक कने इस क्षेत्र कने अंतरराष्ट्रीय मानकों तक पहुँचाने की रणनीतियों पर चर्चा करने के लिए एक मंच पर जमा हुए हैं। भारतीय कागज़ निर्माता संघ (आईपीएमए) के अध्यक्ष और वैनै पेपर्स लिमिटेड

एचआईसीसी में आयोजित सीआईआई पेपरटेक सम्मेलन में उपस्थित भारतीय कागज़ निर्माता संघ के अध्यक्ष पवन अग्रवाल, भारतीय न्यूज प्रिंट निर्माता संघ के अध्यक्ष सुशील कुमार खेतान एवं अन्य।

के प्रबंध निदेशक पवन अग्रवाल ने कहा कि भारतीय लुगदी एवं कागज़ उद्योग मानसिकता में एक साधारण बदलाव के साथ विश्वस्तरीय बन सकता है।

परिचालन का विस्तार, निर्यात में निरंतरता सुनिश्चित करना और अद्वितीय मूल्य प्रस्ताव तैयार करना जैसे छोटे कदम महत्वपूर्ण बदलाव ला सकते हैं। केवल वस्तुओं से आगे बढ़कर और मूल्यवर्धित उत्पादों पर ध्यान केंद्रित करके, इंजीनियर समाधानों के लिए समृद्ध पारिस्थितिकी तंत्र बनाया जा सकता है।

भारतीय न्यूज प्रिंट निर्माता संघ (आईएनएमए) के उपाध्यक्ष और इमामी पेपर लिमिटेड के मुख्य कार्यकारी अधिकारी सुशील कुमार खेतान ने कहा कि सीआईआई का

पेपरटेक विचारों, नवाचारों और बदलाव के लिए सशक्त मंच बन गया है। कागज़ उद्योग ने तेज़ी से तकनीक कने अपनाया है और रीसाइक्लिंग इसके मूल में है। अगला बड़ा कदम कोयले के बिना कागज़ मिलों को कुशल बनाना होना चाहिए। भारतीय कृषि एवं पुनर्विकृत कागज़ मिल्स संघ (आईएआरपीएमए) के अध्यक्ष और रामा पेपर मिल्स लिमिटेड के अध्यक्ष एवं प्रबंध निदेशक प्रमोद अग्रवाल ने कहा कि कागज़ सिर्फ एक उत्पाद नहीं है। यह अर्थव्यवस्था का अभिन्न अंग है। इस उद्योग का विकास सीधे राष्ट्र की प्रगति से जुड़ा है। रीसाइक्लिंग में सबसे बड़े योगदानकर्ता के रूप में कागज़ उद्योग प्रधानमंत्री द्वारा परिकल्पित स्वच्छ भारत मिशन के साथ पूरी तरह से संरेखित है।

CII PaperTech 2025: Driving Sustainability and Innovation in Paper Sector

Hyderabad (17 September 2025) — The 19th edition of CII PaperTech, a flagship conference advancing energy efficiency in India's pulp & paper sector, will be held on 16th & 17th September 2025 at the Hyderabad International Convention Centre (HICC). Themed "Make Indian Pulp & Paper Industry World Class", the event brings together industry leaders, innovators, and stakeholders to discuss strategies for elevating the sector to international standards.

Mr. Pawan Agarwal, President, Indian Paper Manufacturers Association (IPMA) and MD, Naini Papers Ltd., highlighted: "The Indian pulp and paper industry can become world-class with a simple shift in mindset. Small steps, such as scaling operations, ensuring export consistency, and creating unique value propositions, can make a significant difference. By moving beyond just commodities and focusing on value-added products, we can create a thriving ecosystem for engineered solutions."

Mr. Sushil Kumar Khetan, Vice President of the Indian Newsprint Manufacturers Association (INMA) & Chief Executive Officer, Emami Paper Ltd., shared: "CII's PaperTech has become a powerful platform for ideas, innovations, and change. The paper industry has rapidly embraced technology, with recycling at its very core. Our next big step must be to make paper mills efficient without coal, moving decisively from intent to action."

Mr. Pramod Agarwal, President, Indian Agro & Recycled Paper Mills Association (IARPM) & Chairman & Managing Director, Rama Paper Mills Ltd. remarked: "Paper is not just a product—it is an integral part of our economy. The growth of this industry is directly linked to the progress of the nation. As the largest contributor to recycling, the paper industry perfectly aligns with the Swachh Bharat Mission envisioned by our Hon'ble Prime Minister."

In addition to insightful discussions and keynote addresses, PaperTech 2025 featured the release of the "Best Practices Manual in Paper Sector (Volume 13)," showcasing advancements and innovations within the industry. The conference also honored N Gopalratnam, Chairman, Seshasayee Paper & Boards Ltd. with the Distinguished Personality award, recognizing his outstanding contributions to the pulp and paper sector.

PaperTech 2025 is being organized alongside the 24th CII Energy Efficiency Summit and the 26th CII National Energy Awards for Excellence in Energy Management, where leading paper mills and other industries will be awarded after evaluation of their achievements in energy efficiency.

CII PaperTech 2025: Driving Sustainability and Innovation in Paper Sector

Neel Achary • September 17, 2025

Hyderabad (17 September 2025) — The 19th edition of CII PaperTech, a flagship conference advancing energy efficiency in India's pulp & paper sector, will be held on 16th & 17th September 2025 at the Hyderabad International Convention Centre (HICC). Themed "Make Indian Pulp & Paper Industry World Class", the event brings together industry leaders, innovators, and stakeholders to discuss strategies for elevating the sector to international standards.

Mr. Pawan Agarwal, President, Indian Paper Manufacturers Association (IPMA) and MD, Naini Papers Ltd., highlighted: "The Indian pulp and paper industry can become world-class with a simple shift in mindset. Small steps, such as scaling operations, ensuring export consistency, and creating unique value propositions, can make a significant difference. By moving beyond just commodities and focusing on value-added products, we can create a thriving ecosystem for engineered solutions."

Mr. Sushil Kumar Khetan, Vice President of the Indian Newsprint Manufacturers Association (INMA) & Chief Executive Officer, Emami Paper Ltd., shared: "CII's PaperTech has become a powerful platform for ideas, innovations, and change. The paper industry has rapidly embraced technology, with recycling at its very core. Our next big step must be to make paper mills efficient without coal, moving decisively from intent to action."

Mr. Pramod Agarwal, President, Indian Agro & Recycled Paper Mills Association (IARPMA) & Chairman & Managing Director, Rama Paper Mills Ltd. remarked: "Paper is not just a product—it is an integral part of our economy. CII PaperTech 2025: Driving Sustainability and Innovation in Paper Sector

 Neel Achary • Business September 17, 2025 • 0 Comments

Hyderabad (17 September 2025) – The 19th edition of CII PaperTech, a flagship conference advancing energy efficiency in India's pulp & paper sector, will be held on 16th & 17th September 2025 at the Hyderabad International Convention Centre (HICC). Themed "Make Indian Pulp & Paper Industry World Class", the event brings together industry leaders, innovators, and stakeholders to discuss strategies for elevating the sector to international standards.

“ Mr. Pawan Agarwal, President, Indian Paper Manufacturers Association (IPMA) and MD, Naini Papers Ltd., highlighted: *“ The Indian pulp and paper industry can become world-class with a simple shift in mindset. Small steps, such as scaling operations, ensuring export consistency, and creating unique value propositions, can make a significant difference. By moving beyond just commodities and focusing on value-added products, we can create a thriving ecosystem for engineered solutions.”*

Mr. Sushil Kumar Khetan, Vice President of the Indian Newsprint Manufacturers Association (INMA) & Chief Executive Officer, Emami Paper Ltd., shared: *“ CII’s PaperTech has become a powerful platform for ideas, innovations, and change. The paper industry has rapidly embraced technology, with recycling at its very core. Our next big step must be to make paper mills efficient without coal, moving decisively from intent to action.”*

Mr. Pramod Agarwal, President, Indian Agro & Recycled Paper Mills Association (IARPMA) & Chairman & Managing Director, Rama Paper Mills Ltd. remarked: *“Paper is not just a product—it is an integral part of our economy. The growth of this industry is directly linked to the progress of the nation. As the largest contributor to recycling, the paper industry perfectly aligns with the Swachh Bharat Mission envisioned by our Hon’ble Prime Minister.”*

In addition to insightful discussions and keynote addresses, PaperTech 2025 featured the release of the “Best Practices Manual in Paper Sector (Volume 13),” showcasing advancements and innovations within the industry. The conference also honored N Gopalratnam, Chairman, Seshasayee Paper & Boards Ltd. with the Distinguished Personality award, recognizing his outstanding contributions to the pulp and paper sector.

PaperTech 2025 is being organized alongside the 24th CII Energy Efficiency Summit and the 26th CII National Energy Awards for Excellence in Energy Management, where leading paper mills and other industries will be awarded after evaluation of their achievements in energy efficiency.

CII PaperTech 2025: Driving Sustainability and Innovation in Paper Sector

Business Admin 9/17/2025

Hyderabad (17 September 2025) — The 19th edition of CII PaperTech, a flagship conference advancing energy efficiency in India's pulp & paper sector, will be held on 16th & 17th September 2025 at the Hyderabad International Convention Centre (HICC). Themed "Make Indian Pulp & Paper Industry World Class", the event brings together industry leaders, innovators, and stakeholders to discuss strategies for elevating the sector to international standards.

Recent post

Mr. Pawan Agarwal, President, Indian Paper Manufacturers Association (IPMA) and MD, Naini Papers Ltd., highlighted: " The Indian pulp and paper industry can become world-class with a simple shift in mindset. Small steps, such as scaling operations, ensuring export consistency, and creating unique value propositions, can make a significant difference. By moving beyond just commodities and focusing on value-added products, we can create a thriving ecosystem for engineered solutions."

Mr. Sushil Kumar Khetan, Vice President of the Indian Newsprint Manufacturers Association (INMA) & Chief Executive Officer, Emami Paper Ltd., shared: " CII's PaperTech has become a powerful platform for ideas, innovations, and change. The paper industry has rapidly embraced technology, with recycling at its very core. Our next big step must be to make paper mills efficient without coal, moving decisively from intent to action."

Mr. Pramod Agarwal, President, Indian Agro & Recycled Paper Mills Association (IARPMA) & Chairman & Managing Director, Rama Paper Mills Ltd. remarked: "Paper is not just a product—it is an integral part of our economy. The growth of this industry is directly linked to the progress of the nation. As the largest contributor to recycling, the paper industry perfectly aligns with the Swachh Bharat Mission envisioned by our Hon'ble Prime Minister."

In addition to insightful discussions and keynote addresses, PaperTech 2025 featured the release of the "Best Practices Manual in Paper Sector (Volume 13)," showcasing advancements and innovations within the industry. The conference also honored N Gopalratnam, Chairman, Seshasayee Paper & Boards Ltd. with the Distinguished Personality award, recognizing his outstanding contributions to the pulp and paper sector.

CII's Power Plant Summit Champions Efficiency, Sustainability & AI in Thermal Power Sector

Hyderabad, Sep 16: The 21st edition of the Power Plant Summit, organized by the Confederation of Indian Industry-Green Business Centre (CII – GBC), is taking place on 16th and 17th September 2025 at the Hyderabad International Convention Centre (HICC). This year's theme, "Empowering the Future of Thermal Power: Efficiency, Sustainability, Flexibility and AI," addresses advancements and critical challenges and advancements in thermal power sector.

Mr. Bidya Nand Jha, Chairman – Power Plant Summit 2025 and Executive Director (Operations), National Thermal Power Corporation Limited (NTPC), underscored the importance of the thermal power sector in India's energy mix. He said: "With the GOI's plan to increase the Renewable Energy installation to 50% of the total installed capacity by the end of 2030, the average Plant Load Factor (PLF) of Indian thermal power plants is expected to reduce to accommodate the uncertainty and variability of RE. With this it becomes

imperative that the sector should shift its focus to technologies that will support increased efficiency during part load operations with reduced emissions."

Mr. Praveen Gupta, Member (Thermal), Central Electricity Authority (CEA), Ministry of Power, Government of India, in his special address, remarked: "Energy efficiency in power generation is critical to India's energy security and environmental sustainability. By adopting innovative technologies, operational best practices,

and policy frameworks, we can significantly reduce the sector's carbon footprint while ensuring reliable power supply."

Mr. Y. Rajashekara Reddy, Director (Thermal & Projects), Telangana Power Generation Corporation (TGGenco) also joined the Summit and shared his insights. He noted, "TGGenco has consistently maintained high Plant Load Factors, demonstrating robust O&M practices and efficient utilization of resources and by embracing supercritical technology, we

have not only improved efficiency but also reduced emissions, aligning ourselves with the country's sustainability goals."

The inaugural session of Power Plant Summit 2025 also witnessed the official launch of the publication: "Advancing Efficiency, Innovation & Flexibility in Thermal Power – A Manual for Indian Thermal Power Plants." The summit will explore innovative methods to enhance energy efficiency, advance environmental management practices, and enhance flexible operations in thermal power plants. A key focus will be on the integration of automation and artificial intelligence to drive performance improvements and sustainability.

The Power Plant Summit 2025 is being organized in tandem with the 24th CII Energy Efficiency Summit and the 26th National Energy Awards for Excellence in Energy Management, where India's top-performing power plants will present & showcase their technical & managerial expertise in energy efficiency and energy management.

Mr. Praveen Gupta, Member (Thermal), Central Electricity Authority (CEA), Ministry of Power, Government of India, in his special address, remarked: "Energy efficiency in power generation is critical to India's energy security and environmental sustainability. By adopting innovative technologies, operational best practices, and policy frameworks, we can significantly reduce the sector's carbon footprint while ensuring reliable power supply."

Mr. Y. Rajashekara Reddy, Director (Thermal & Projects), Telangana Power Generation Corporation (TGGENCO) also joined the Summit and shared his insights. He noted, "TGGENCO has consistently maintained high Plant Load Factors, demonstrating robust O&M practices and efficient utilization of resources and by embracing supercritical technology, we have not only improved efficiency but also reduced emissions, aligning ourselves with the country's sustainability goals."

The inaugural session of Power Plant Summit 2025 also witnessed the official launch of the publication: "Advancing Efficiency, Innovation & Flexibility in Thermal Power – A Manual for Indian Thermal Power Plants."

The summit will explore innovative methods to enhance energy efficiency, advance environmental management practices, and enhance flexible operations in thermal power plants. A key focus will be on the integration of automation and artificial intelligence to drive performance improvements and sustainability.

The Power Plant Summit 2025 is being organized in tandem with the 24th CII Energy Efficiency Summit and the 26th National Energy Awards for Excellence in Energy Management, where India's top-performing power plants will present & showcase their technical & managerial expertise in energy efficiency and energy management.

CII's Power Plant Summit Champions Efficiency, Sustainability & AI in Thermal Power Sector

By Electronics Buzz - September 17, 2025

43 0

The 21st edition of the Power Plant Summit, organized by the [Confederation of Indian Industry](#)– Green Business Centre (CII – GBC), is taking place on 16th and 17th September 2025 at the Hyderabad International Convention Centre (HICC). This year's theme, "Empowering the Future of Thermal Power: Efficiency, Sustainability, Flexibility and AI," addresses advancements and critical challenges and

advancements in thermal power sector.

Mr. Bidya Nand Jha, Chairman – Power Plant Summit 2025 and Executive Director (Operations), National Thermal Power Corporation Limited (NTPC), underscored the importance of the thermal power sector in India's energy mix. He said: "With the GOI's plan to increase the [Renewable](#) Energy installation to 50% of the total installed capacity by the end of 2030, the average Plant Load Factor (PLF) of Indian thermal power plants is expected to reduce to accommodate the uncertainty and variability of RE. With this it becomes imperative that the sector should shift its focus to technologies that will support increased efficiency during part load operations with reduced emissions."

Mr. Praveen Gupta, Member (Thermal), Central Electricity Authority (CEA), Ministry of Power, Government of India, in his special address, remarked: "Energy efficiency in power generation is critical to India's **energy** security and environmental **sustainability**. By adopting innovative technologies, operational best practices, and policy frameworks, we can significantly reduce the sector's carbon footprint while ensuring reliable power supply."

Mr. Y. Rajashekara Reddy, Director (Thermal & Projects), Telangana Power Generation Corporation (TGGenco) also joined the Summit and shared his insights. He noted, "TGGenco has consistently maintained high Plant Load Factors, demonstrating robust O&M practices and efficient utilization of resources and by embracing supercritical technology, we have not only improved efficiency but also reduced emissions, aligning ourselves with the country's sustainability goals."

The inaugural session of Power Plant Summit 2025 also witnessed the official launch of the publication: "Advancing Efficiency, **Innovation** & Flexibility in Thermal Power – A Manual for Indian Thermal Power Plants."

The summit will explore innovative methods to enhance energy efficiency, advance environmental management practices, and enhance flexible operations in thermal power plants. A key focus will be on the integration of automation and artificial intelligence to drive performance improvements and sustainability.

The Power Plant Summit 2025 is being organized in tandem with the 24th CII Energy Efficiency Summit and the 26th National Energy Awards for Excellence in Energy Management, where India's top-performing power plants will present & showcase their technical & managerial expertise in energy efficiency and energy management.

CII's Energy Efficiency Summit 2025 Champions Sustainability & Net Zero Goals

Hyderabad, Sep 17: The Confederation of Indian Industry – Green Business Centre (CII – GBC) is hosting the 24th Energy Efficiency Summit, India's largest conference on energy efficiency, from 16–18 September 2025 at the Hyderabad International Convention Centre (HICC). Themed "Accelerating the Transition to a Low-Carbon Economy through Energy Efficiency," the Summit brought together over 2,500+ delegates, 100+ eminent speakers, and 100+ exhibitors representing government, industry, international organizations, and academia.

This flagship event emerged as a pivotal platform for industry leaders, policymakers, and experts to share actionable strategies that will accelerate India's sustainable, net-zero future. The Summit showcased engaging high-level sessions, technical presentations, and interactive workshops, driving meaningful dialogues on energy efficiency practices across 18+ industry sectors.

Mr. Cristiano Pasini, Director and Representative, UNIDO Sub-Regional Office in India, shared insights on global collaboration: "As a specialized

agency for industrial development, UNIDO recognises the transformative shift in the global industrial landscape. India now stands at the threshold of a tremendous opportunity, by leveraging clean energy growth as a new competitive advantage. Green hydrogen, renewable power, and energy storage can be powerful levers for industrial transformation. India's manufacturing sector, by embracing decarbonisation, has the chance to set new benchmarks for carbon transition worldwide. UNIDO remains committed to working closely with India and CII, collaborating to accelerate this journey and shape a sustainable future."

Mr. Ravichandran Purushothaman, Chairman, Energy Efficiency Council & President, Danfoss Industries Pvt Ltd, underscored India's unique growth opportunity: "This is a decisive decade, one that carries immense global significance. Despite having one of the lowest per capita incomes, India has managed to match strides with global giants, achieving milestones at the fastest pace. Guided by CII's Green Business Centre, with support from BEE and key clusters, initiatives like retrofitting buildings are now paying back in under two years. Energy efficiency is proving itself as a solution and also as the true driver of a clean energy future. To advance further, India must continue making energy efficiency practical, affordable, and accessible, ensuring we move confidently toward a low-carbon economy."

Mr. Tejpreet Singh Chopra, Founder & CEO of Bharat Light & Power Group (BLP), emphasized the critical role of energy efficiency in India's industrial growth: "Transitioning to a low-carbon economy is possible through energy efficiency since it is scalable, achievable, and already underway. India is on track to exceed its 2030 goals, turning ambition into reality. To accelerate this journey, digitization must be our advisor, finance our enabler, and partnerships our multiplier. Energy efficiency

is imperative and it will be the force that creates a competitive and sustainable future for India."

Spotlight Features of the Event:

- * Inauguration of a dedicated pavilion, which features 25 low carbon technology solutions that address the existing technology gaps in Indian industrial and commercial sectors, by Mr. Cristiano Pasini and Mr. Ravichandran Purushothaman.
- * MoU signing between CII-Green Business Centre and PTC India Ltd. (PTC) to facilitate collaborative activities and strategic partnerships in the areas innovation, sustainability and MSME empowerment.
- * Workshop on innovative renewable energy technologies & B2B meetings with 19 renewable energy startups from Australia, as part of the India-Australia RISE Accelerator, delivered by CSIRO (Australia's national science agency) in partnership with Atal Innovation Mission, NITI Aayog.

Highlights at a Glance:

- * 26th CII National Award for Excellence in Energy Management: Recognizing outstanding contributions from over 200 companies and individuals demonstrating leadership in energy management and sustainable practices.

Sector-Focused Conferences:

- * 21st Power Plant Summit 2025 – focused on innovations and strategies in the thermal power sector.
- * 19th CII PaperTech 2025 – focused on advancing sustainability in the pulp and paper industry.
- * Exhibition of cutting-edge solutions: Over 100 exhibitors presented the latest energy efficiency technologies, including a dedicated pavilion for low-carbon innovations.

The event fostered valuable networking opportunities and partnerships, strengthening industry collaborations toward a sustainable future.

హెచ్ఐసీసీలో ఇంధన సామర్థ్యంపై సదస్సు

మాదాపూర్: మాదాపూర్లోని హెచ్ఐసీసీలో బుధ వారం భారత పరిశ్రమల సమాఖ్య, గ్రీన్ బిజినెస్ సెంటర్ (సీఐఐ- జీబీసీ) ఇంధన సామర్థ్యంపై సదస్సు నిర్వహించాయి. సదస్సులో 2,500 మంది ప్రతినిధులు, వంద మంది ప్రముఖ వక్తలు,

ప్రభుత్వం, పరిశ్రమ, అంతర్జాతీయ సంస్థలు, విద్యాసంస్థలకు ప్రాతినిధ్యం వహిస్తున్న వంద మంది ప్రదర్శన కారులు పాల్గొన్నారు. ఇంధన సామర్థ్య పద్ధతులపై ఉన్నత స్థాయి సెషన్లు, సాంకేతిక ప్రదర్శనలు, ఇంటరాక్టివ్ వర్క్ షాప్లు నిర్వహించారు. డీకార్బనైజేషన్ను స్వీకరించడం ద్వారా భారతదేశ తయారీ రంగం ప్రపంచ వ్యాప్తంగా కార్బన్ పరివర్తనకు కొత్త ప్రమాణాలను నిర్దేశించే అవకాశాన్ని కలిగి ఉందని యూనిడో ఉపప్రాంతీయ కార్యాలయం డైరెక్టర్ క్రిస్టియానో పాలసీ అన్నారు. కార్యక్రమంలో ఎనర్జీ ఎఫీషియన్సీ కౌన్సిల్ చైర్మన్ రవిచంద్రన్ పురుషోత్తమన్ తదితరులు పాల్గొన్నారు.

सीआईआई के ऊर्जा दक्षता शिखर सम्मेलन में नेट-ज़ीरो लक्ष्य पर चर्चा

हैदराबाद, 17 सितंबर
(मिलाप ब्यूरो)

भारतीय उद्योग परिसंघ ग्रीन बिजनेस सेंटर (सीआईआई-जीबीसी) के 24वें ऊर्जा दक्षता शिखर सम्मेलन में आज ऊर्जा दक्षता के माध्यम से निम्न कार्बन अर्थव्यवस्था में परिवर्तन को गति प्रदान करने के विषय पर विस्तार से चर्चा की गयी।

सीआईआई का ऊर्जा दक्षता पर आधारित शिखर सम्मेलन आज माधापुर स्थित एचआईसीसी में प्रारंभ हुआ। इसमें 2,500 से अधिक प्रतिनिधि, प्रख्यात वक्ता और सरकार, उद्योग, अंतरराष्ट्रीय संगठन, शिक्षा जगत के 100 से अधिक प्रतिनिधि तथा 100 से अधिक प्रदर्शक शामिल हुए। इस मंच पर भारत के स्थायी, नेट-ज़ीरो भविष्य को गति प्रदान करने के लिए कार्ययोग्य रणनीतियाँ साझा की गयीं। शिखर सम्मेलन में आकर्षक उच्च-स्तरीय सत्र, तकनीकी प्रस्तुतियाँ और चर्चा आधारित कार्यशालाएँ आयोजित की गईं, जिससे 18 से अधिक उद्योग क्षेत्रों में ऊर्जा दक्षता प्रथाओं पर सार्थक संवाद को बढ़ावा दिया गया।

भारतीय उद्योग परिसंघ ग्रीन बिजनेस सेंटर (सीआईआई-जीबीसी) द्वारा आयोजित 24वें ऊर्जा दक्षता शिखर सम्मेलन का दृश्य।

भारत में यूएनआईडीओ उपक्षेत्रीय कार्यालय के निदेशक और प्रतिनिधि क्रिस्टियानो पासिनी ने वैश्विक सहयोग पर विचार साझा करते हुए कहा कि औद्योगिक विकास के लिए एक विशेष एजेंसी के रूप में यूएनआईडीओ वैश्विक औद्योगिक परिदृश्य में परिवर्तनकारी बदलाव की पहचान की है। भारत अब स्वच्छ ऊर्जा विकास की राह में एक जबरदस्त अवसर की दहलीज पर खड़ा है। हरित हाइड्रोजन, नवीकरणीय

ऊर्जा और ऊर्जा भंडारण औद्योगिक परिवर्तन के लिए शक्तिशाली उत्प्रेरक हो सकते हैं। भारत के विनिर्माण क्षेत्र वेग पास डीकार्बोनाइजेशन को अपनाकर दुनिया भर में कार्बन परिवर्तन के लिए नए मानक स्थापित करने का अवसर है। यूएनआईडीओ भारत और सीआईआई के साथ मिलकर काम करने और इस यात्रा को गति देने और स्थायी भविष्य को आकार देने के लिए प्रतिबद्ध है।

ऊर्जा दक्षता परिषद के अध्यक्ष और डैनफॉस इंडस्ट्रीज प्राइवेट लिमिटेड के अध्यक्ष रविचंद्रन पुरुषोत्तमन ने भारत के अद्वितीय विकास अवसर पर जोर देते हुए कहा कि यह एक निर्णायक दशक है, जिसका वैश्विक स्तर पर अत्यधिक महत्व है। सबसे कम प्रति व्यक्ति आय वाले देशों में से एक होने के बावजूद भारत वैश्विक दिग्गजों के साथ कदम से कदम मिलाकर चलने में कामयाब रहा है

और सबसे तेज़ गति से उपलब्धियाँ हासिल करें। सीआईआई के ग्रीन बिजनेस सेंटर के मार्गदर्शन में बीईई और प्रमुख समूहों के सहयोग से इमारतों के पुनर्निर्माण जैसी पहल अब दो साल से भी कम समय में फलदायी साबित हो रही हैं। ऊर्जा दक्षता पहले एक समाधान के रूप में और स्वच्छ ऊर्जा भविष्य के सच्चे वाहक सिद्ध हो रही है। आगे बढ़ने के लिए भारत को ऊर्जा दक्षता को व्यावहारिक, किफायती और सुलभ बनाना जारी रखना होगा, ताकि आत्मविश्वास के साथ कम कार्बन वाली अर्थव्यवस्था की ओर बढ़ सकें।

भारत लाइट एंड पावर ग्रुप (बीएलपी) के संस्थापक एवं सीईओ तेजप्रोत सिंह चोपड़ा ने भारत के औद्योगिक विकास में ऊर्जा दक्षता की महत्वपूर्ण भूमिका पर जोर देते हुए कहा कि ऊर्जा दक्षता के माध्यम से कम कार्बन उत्सर्जन वाली अर्थव्यवस्था में परिवर्तन संभव है, क्योंकि यह मापनीय साध्य और पहले से ही जारी है। भारत अपने 2030 के लक्ष्यों को पार करने और महत्वाकांक्षाओं को वास्तविकता में बदलने की राह पर है।

CII's Energy Efficiency Summit 2025 Champions Sustainability & Net Zero Goals

Highlights from the 24th CII Energy Efficiency Summit 2025 – engaging sessions, technology showcases and more, driving India's low-carbon future

Hyderabad (Telangana) [India], September 18: The Confederation of Indian Industry – Green Business Centre (CII – GBC) is hosting the 24th Energy Efficiency Summit, India's largest conference on energy efficiency, from 16–18 September 2025 at the Hyderabad International Convention Centre (HICC). Themed "Accelerating the Transition to a Low-Carbon Economy through Energy Efficiency," the Summit brought together over 2,500+ delegates, 100+ eminent speakers, and 100+ exhibitors representing government, industry, international organizations, and academia.

This flagship event emerged as a pivotal platform for industry leaders, policymakers, and experts to share actionable strategies that will accelerate India's sustainable, net-zero future. The Summit showcased engaging high-level sessions, technical presentations, and interactive workshops, driving meaningful dialogues on energy efficiency practices across 18+ industry sectors.

Mr. Cristiano Pasini, Director and Representative, UNIDO Sub-Regional Office in India, shared insights on global collaboration: "As a specialized agency for industrial development, UNIDO recognises the transformative shift in the global industrial landscape. India now stands at the threshold of a tremendous opportunity, by leveraging clean energy growth as a new competitive advantage. Green hydrogen, renewable power, and energy storage can be powerful levers for industrial transformation. India's manufacturing sector, by embracing decarbonisation, has the chance to set new benchmarks for carbon transition worldwide. UNIDO remains committed to working closely with India and CII, collaborating to accelerate this journey and shape a sustainable future."

Advertisement

Mr. Ravichandran Purushothaman, Chairman, Energy Efficiency Council & President, Danfoss Industries Pvt Ltd, underscored India's unique growth opportunity: "This is a decisive decade, one that carries immense global significance. Despite having one of the lowest per capita incomes, India has managed to match strides with global giants, achieving milestones at the fastest pace. Guided by CII's Green Business Centre, with support from BEE and key clusters, initiatives like retrofitting buildings are now paying back in under two years. Energy efficiency is proving itself as a solution and also as the true driver of a clean energy future. To advance further, India must continue making energy efficiency practical, affordable, and accessible, ensuring we move confidently toward a low-carbon economy."

Mr. Tejpreet Singh Chopra, Founder & CEO of Bharat Light & Power Group (BLP), emphasized the critical role of energy efficiency in India's industrial growth:

"Transitioning to a low-carbon economy is possible through energy efficiency since it is scalable, achievable, and already underway. India is on track to exceed its 2030 goals, turning ambition into reality. To accelerate this journey, digitization must be our advisor, finance our enabler, and partnerships our multiplier. Energy efficiency is imperative and it will be the force that creates a competitive and sustainable future for India."

The event featured several key highlights. The inauguration of a dedicated pavilion showcased 25 low-carbon technology solutions addressing existing gaps in Indian industrial and commercial sectors, led by Mr. Cristiano Pasini and Mr. Ravichandran Purushothaman. A Memorandum of Understanding was signed between CII-Green Business Centre and PTC India Ltd. (PTC) to facilitate collaborative activities and strategic partnerships in the areas of innovation, sustainability, and MSME empowerment. In addition, a workshop on innovative renewable energy technologies was conducted, alongside B2B meetings with 19 renewable energy startups from Australia, as part of the India-Australia RISE Accelerator delivered by CSIRO (Australia's national science agency) in partnership with Atal Innovation Mission, NITI Aayog.

Another important highlight was the 26th CII National Award for Excellence in Energy Management, which recognised outstanding contributions from over 200 companies and individuals demonstrating leadership in energy management and sustainable practices.

The Summit also hosted two sector-focused conferences: the 21st Power Plant Summit 2025, dedicated to innovations and strategies in the thermal power sector, and the 19th CII PaperTech 2025, focused on advancing sustainability in the pulp and paper industry. Alongside, an exhibition of cutting-edge solutions saw over 100 exhibitors presenting the latest energy efficiency technologies, including a dedicated pavilion for low-carbon innovations.

The event fostered valuable networking opportunities and partnerships, strengthening industry collaborations toward a sustainable future.

Three-day CII Energy Efficiency Summit ends

Hyderabad, Sep 18 (UNI) A three-day Energy Efficiency Summit, that ended here today, spotlighted India's transition to a low-carbon economy, with sessions dedicated to clean energy transition, energy efficiency financing, and the introduction of advanced technologies and international best practices.

The fourth edition of the summit was organised by the CII–Godrej GBC (Green Business Centre), under the aegis of the CII Energy Efficiency Council.

Chairman of CII, National Energy Efficiency Council and President of Danfoss India, Ravichandran Purushothaman underscored how the summit facilitated the sharing of best practices and emerging innovations critical to India's Net Zero ambitions.

He highlighted that with over 3,000 leaders from industry, technology, and policy sectors in attendance, the event showcased innovation in energy efficiency, emphasised financing, and promoted international and national perspectives on clean energy transition and sustainable solutions.

Ravichandran said, "The Energy Efficiency Summit has once again proven to be a powerful platform to unite policy, industry, and technology leaders in advancing India's Net Zero ambitions. Danfoss India is proud to play a facilitative role in this ecosystem, fostering collaboration and showcasing how clean technologies can drive both competitiveness and decarbonisation.

"As we look ahead, our focus is on shaping future-ready solutions that will not only meet today's energy goals, but also lay the foundation for a sustainable, low-carbon economy for generations to come," he added. UNI KNR RR SSP

CII's Energy Efficiency Summit 2025 Champions Sustainability & Net Zero Goals

Hyderabad : The Confederation of Indian Industry – Green Business Centre (CII – GBC) is hosting the 24th Energy Efficiency Summit, India's largest conference on energy efficiency, from 16–18 September 2025 at the Hyderabad International Convention Centre (HICC). Themed "Accelerating the Transition to a Low-Carbon Economy through Energy Efficiency," the Summit brought together over 2,500+ delegates, 100+ eminent speakers, and 100+ exhibitors representing government, industry, international organizations, and academia.

This flagship event emerged as a pivotal platform for industry leaders, policymakers, and experts to share actionable strategies that will accelerate India's sustainable, net-zero future. The Summit showcased engaging high-level sessions, technical presentations, and interactive workshops, driving meaningful dialogues on energy efficiency practices across 18+ industry sectors.

Mr. Cristiano Pasini, Director and Representative, UNIDO Sub-Regional Office in India, shared insights on global collaboration: "As a specialized agency for industrial development, UNIDO recognises the transformative shift in the global industrial landscape. India now stands at the threshold of a tremendous opportunity, by leveraging clean energy growth as a new competitive advantage. Green hydrogen, renewable power, and energy storage can be powerful levers for industrial transformation. India's manufacturing sector, by embracing decarbonisation, has the chance to set new benchmarks for carbon transition worldwide. UNIDO remains committed to working closely with India and CII, collaborating to accelerate this journey and shape a sustainable future."

Mr. Ravichandran Purushothaman, Chairman, Energy Efficiency Council & President, Danfoss Industries Pvt Ltd, underscored India's unique growth opportunity: "This is a decisive decade, one that carries immense global significance. Despite having one of the lowest per capita incomes, India has managed to match strides with global giants, achieving milestones at the fastest pace. Guided by CII's Green Business Centre, with support from BEE and key clusters, initiatives like retrofitting buildings are now paying back in under two years. Energy efficiency is proving itself as a solution and also as the true driver of a clean energy future. To advance further, India must continue making energy efficiency practical, affordable, and accessible, ensuring we move confidently toward a low-carbon economy."

Mr. Tejpreet Singh Chopra, Founder & CEO of Bharat Light & Power Group (BLP), emphasized the critical role of energy efficiency in India's industrial growth: "Transitioning to a low-carbon economy is possible through energy efficiency since it is scalable, achievable, and already underway. India is on track to exceed its 2030 goals, turning ambition into reality. To accelerate this journey, digitization must be our advisor, finance our enabler, and partnerships our multiplier. Energy efficiency is imperative and it will be the force that creates a competitive and sustainable future for India."

Spotlight Features of the Event:

- Inauguration of a dedicated pavilion, which features 25 low carbon technology solutions that address the existing technology gaps in Indian industrial and commercial sectors, by Mr. Cristiano Pasini and Mr. Ravichandran Purushothaman.
- MoU signing between CII-Green Business Centre and PTC India Ltd. (PTC) to facilitate collaborative activities and strategic partnerships in the areas innovation, sustainability and MSME empowerment.
- Workshop on innovative renewable energy technologies & B2B meetings with 19 renewable energy startups from Australia, as part of the India-Australia RISE Accelerator, delivered by CSIRO (Australia's national science agency) in partnership with Atal Innovation Mission, NITI Aayog.

Highlights at a Glance:

- 26th CII National Award for Excellence in Energy Management: Recognizing outstanding contributions from over 200 companies and individuals demonstrating leadership in energy management and sustainable practices.
- Sector-Focused Conferences:
 - o 21st Power Plant Summit 2025 – focused on innovations and strategies in the thermal power sector.
 - o 19th CII PaperTech 2025 – focused on advancing sustainability in the pulp and paper industry.
- Exhibition of cutting-edge solutions: Over 100 exhibitors presented the latest energy efficiency technologies, including a dedicated pavilion for low-carbon innovations.

The event fostered valuable networking opportunities and partnerships, strengthening industry collaborations toward a sustainable future.

UNIDO remains committed to working closely with India and CII, collaborating to accelerate this journey and shape a sustainable future."

Mr. Ravichandran Purushothaman, Chairman, Energy Efficiency Council & President, Danfoss Industries Pvt Ltd, underscored India's unique growth opportunity: "This is a decisive decade, one that carries immense global significance. Despite having one of the lowest per capita incomes, India has managed to match strides with global giants, achieving milestones at the fastest pace. Guided by CII's Green Business Centre, with support from BEE and key clusters, initiatives like retrofitting buildings are now paying back in under two years. Energy efficiency is proving itself as a solution and also as the true driver of a clean energy future. To advance further, India must continue making energy efficiency practical, affordable, and accessible, ensuring we move confidently toward a low-carbon economy."

Mr. Tejpreet Singh Chopra, Founder & CEO of Bharat Light & Power Group (BLP), emphasized the critical role of energy efficiency in India's industrial growth: "Transitioning to a low-carbon economy is possible through energy efficiency since it is scalable, achievable, and already underway. India is on track to exceed its 2030 goals, turning ambition into reality. To accelerate this journey, digitization must be our advisor, finance our enabler, and partnerships our multiplier. Energy efficiency is imperative and it will be the force that creates a competitive and sustainable future for India."

The event featured several key highlights. The inauguration of a dedicated pavilion showcased 25 low-carbon technology solutions addressing existing gaps in Indian industrial and commercial sectors, led by Mr. Cristiano Pasini and Mr. Ravichandran Purushothaman. A Memorandum of Understanding was signed between CII-Green Business Centre and PTC India Ltd. (PTC) to facilitate collaborative activities and strategic partnerships in the areas of innovation, sustainability, and MSME empowerment. In addition, a workshop on innovative renewable energy technologies was conducted, alongside B2B meetings with 19 renewable energy startups from Australia, as part of the India-Australia RISE Accelerator delivered by CSIRO (Australia's national science agency) in partnership with Atal Innovation Mission, NITI Aayog.

Another important highlight was the 26th CII National Award for Excellence in Energy Management, which recognised outstanding contributions from over 200 companies and individuals demonstrating leadership in energy management and sustainable practices. The Summit also hosted two sector-focused conferences: the 21st Power Plant Summit 2025, dedicated to innovations and strategies in the thermal power sector, and the 19th CII PaperTech 2025, focused on advancing sustainability in the pulp and paper industry. Alongside, an exhibition of cutting-edge solutions saw over 100 exhibitors presenting the latest energy efficiency technologies, including a dedicated pavilion for low-carbon innovations.

The event fostered valuable networking opportunities and partnerships, strengthening industry collaborations toward a sustainable future.

CII's Energy Efficiency Summit 2025 Champions Sustainability & Net Zero Goals

Hyderabad, September 17, 2025: The Confederation of Indian Industry – Green Business Centre (CII – GBC) is hosting the 24th Energy Efficiency Summit, India's largest conference on energy efficiency, from 16–18 September 2025 at the Hyderabad International Convention Centre (HICC). Themed "Accelerating the Transition to a Low-Carbon Economy through Energy Efficiency," the Summit brought together over 2,500+ delegates, 100+ eminent speakers, and 100+ exhibitors representing government, industry, international organizations, and academia.

This flagship event emerged as a pivotal platform for industry leaders, policymakers, and experts to share actionable strategies that will accelerate India's sustainable, net-zero future. The Summit showcased engaging high-level sessions, technical presentations, and interactive workshops, driving meaningful dialogues on energy efficiency practices across 18+ industry sectors.

Cristiano Pasini, Director and Representative, UNIDO Sub-Regional Office in India, shared insights on global collaboration: "As a specialized agency for industrial development, UNIDO recognises the transformative shift in the global industrial landscape. India now stands at the threshold of a tremendous opportunity, by leveraging clean energy growth as a new competitive advantage. Green hydrogen, renewable power, and energy storage can be powerful levers for industrial transformation. India's manufacturing sector, by embracing decarbonisation, has the chance to set new benchmarks for carbon transition worldwide. UNIDO remains committed to working closely with India and CII, collaborating to accelerate this journey and shape a sustainable future."

Ravichandran Purushothaman, Chairman, Energy Efficiency Council & President, Danfoss Industries Pvt Ltd, underscored India's unique growth opportunity: "This is a decisive decade, one that carries immense global significance. Despite having one of the lowest per capita incomes, India has managed to match strides with global giants, achieving milestones at the fastest pace. 24 ویں انرجی سمسٹ میں اکیڈمک پیپر پریزنٹیشن
حیدرآباد، انڈیا 19 - ستمبر (پریس نوٹ) کنفیڈریشن آف انڈین انڈسٹری - گرین بزنس

سینٹر (CII-GBC) نے حیدرآباد انٹرنیشنل کنونشن سینٹر میں 24 ویں انرجی ایفیشینسی سمسٹ 2025 کے حصے کے طور پر ایک اکیڈمک پیپر پریزنٹیشن کی کامیابی سے میزبانی کی۔ اس تقریب میں پوسٹ گریجویٹ، پی ایچ ڈی اسکالرز، محققین، اور سائنس دانوں سے صنعت کے پیشہ ور افراد کے لیے جدید تحقیق کی نمائش کی گئی جو کم کاربن ٹیکنالوجیز اور توانائی کی کارکردگی کو آگے بڑھانے پر مرکوز تھے۔ متنوع پریزنٹیشنز میں صنعتی توانائی کی کارکردگی، خالص صفر کی حکمت عملی، قابل تجدید توانائی کے انضمام، گرین ہائیڈروجن، کاربن کپچر، فضلہ حرارت کی وصولی وغیرہ جیسے اہم موضوعات کا احاطہ کیا گیا۔ صنعت اور اکیڈمی کے ماہرین کے ایک ہنٹل کی طرف سے سخت تفتیش کے بعد، منتخب کاغذات کو ان کی اختراع، توسیع پذیری، اور ممکنہ اثرات کے لیے تسلیم کیا گیا۔ جیتنے والوں کی حوصلہ افزائی کی جائے گی کہ وہ پائلٹ پروجیکٹس کے لیے معروف صنعتی شراکت داروں کے ساتھ باہمی تعاون کے مواقع تلاش کریں۔
