

ANNOUNCEMENT

BEE Partners with CII Heat Pump Alliance

The partnership between the Bureau of Energy Efficiency (BEE) and the CII Green Business Centre's Heat Pump Alliance marks an important step towards advancing energy efficiency in India. BEE's expertise, policy guidance, and strategic direction will play a pivotal role in supporting the Alliance's mission and driving greater impact across the sector.

INDUSTRY UPDATES

The missing link to net zero

Business Standard | 25 August 2026

A net-zero target without sector transition plans and transition finance is a destination with no map. More than 140 countries, covering 90 per cent of global carbon emissions, have announced net-zero targets for 2050 to 2070.

Telangana's clean energy roadmap

Financial Express | 20 August, 2026

Telangana has laid out a clean energy roadmap that aims to transform the state into a major manufacturing and deployment hub for renewable technologies, with solar power at the core.

Floating solar: Can it be India's next renewable energy success story?

The Indian Express | 24 August, 2026

Although India has already made some strides in large floating solar plants, the recent approval of the PM Surya Sarovar Yojana could provide the much-needed policy push to accelerate pan-India deployment.

India's clean energy future needs more than lithium-ion batteries

Hindustan Times | 26 August, 2026

India's clean energy transition is entering a more complex phase. The challenge is no longer merely producing renewable electricity but ensuring it can be stored, dispatched, and integrated reliably across the grid.
